

FADAK KALA CO.

PET PREFORM SUPPLIER

We are better together

QUALITY CONTROL AND ASSURANCE

The core of our business is formed on two solid pillars: Customer satisfaction and quality products. Taking care of quality of our products leads us to maintain high standards and define innovative organizational values. What made us shine over the decades and expand our core values is our professional team of experts. Our one of a kind manufacturing facility is highly monitored by quality control system and very well equipped with laboratory instruments and gadgets. This makes us stand at the top of PET suppliers in Middle East region. Our quality assurance system provides continuous monitoring and surveillance of production lines and prevents any minor possible error or mistake. We are proud to have a great reputation among our valuable customers about quality of our products and services. Hard work and customer appreciation are two main elements which made us stand out in PET industry.

FADAK KALA CO.

PREFORM

We are well-known for diversification of our products. In order to provide wide range of quality products for our valuable customers, we are continuously improving our production systems and apply high end available technologies worldwide.

Our capability in fulfilling large orders on time to our customers' satisfaction makes us a trustable supplier especially during the instability of packing market. This is not but because of applying high capacity of our modern machinery and efficient production planning by our skillful staff.

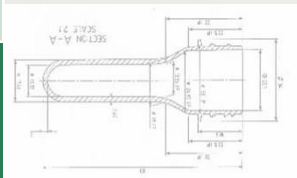

PCO-1810 PET PREFORM

Standard neck design of this product is in a way which makes it applicable for CSD and Non-CSD beverages. Other features of this product are: Only use officially approved Graded-A resin

Applicable for mineral water PET bottle and aseptic products

Size and specifications are fully complied with international standards . Absolutely low reject rate in blowing process Diversified PET preform weights. Ability to customize weight, neck-finish and color preforms based on customer requests and orders

Weight (g)	Neck (mm)	Length (mm)	Application
14	28 pco	80	250 ml-CSD
17	28 pco	80	250-300 ml-CSD
19	28 pco	100	250-300 ml-CSD

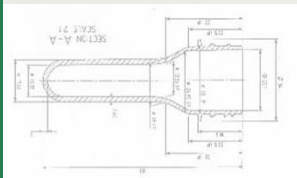

PCO-1810 PET PREFORM

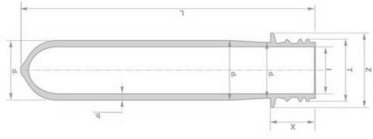

Weight(g)	Neck(mm)	Length(mm)	Application
20	28 PCO	80	250-300 ml-CSD
21	28 PCO	100	250-300 ml-CSD
23	28 PCO	100	250-300 ml-CSD
24	28 PCO </td <td>100</td> <td>250-300 ml-CSD</td>	100	250-300 ml-CSD
27	28 PCO	100	300-500 ml-CSD
34	28 PCO	125	1000-1500 ml-CSD
36	28 PCO	142	1000-1500 ml-CSD

PCO-1810 PET PREFORM

Weight (g)	Neck (mm)	Length(mm)	Application

45	28 PCO	142	1500 ml-CSD
46	28 PCO	133	1500 ml-CSD

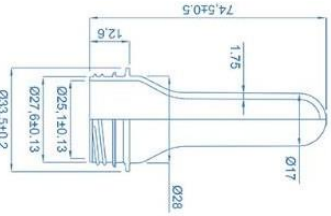

PCO-1881 PET PREFORM

PET Preform PCO-1881 is one of our lower weight products which its neck part is 1.5 gr lighter than type 1810. This makes a huge economical savings in mass production which is preferable for Carbonated Soft Drink (CSD) manufacturers.

Weight (g)	Neck (mm)	Length (mm)	Application
15.5	28 PCO	87	250-300 ml-CSD
20.5	28 PCO	87	250-500 ml-CSD

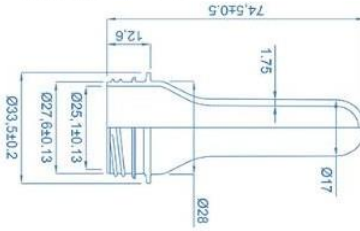

30/25 PET PREFORM

- This PET Preform's main application is in water bottling. Other features of this product are:
 - Only use officially approved Graded-A resin
 - Applicable for mineral water PET Bottle
 - PET Bottles for aseptic products
 - Size and specifications are fully complied with
 - international standards
 - Absolutely low reject rate in blowing process
 - Diversified PET preform weights
 - Ability to customize weight, neck-finish and color preforms based on customer requests and orders
- This product is definitely most desirable Preform in the market for bottle design

FADAK KALA CO.

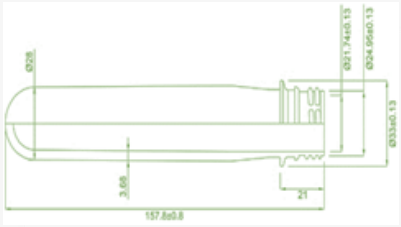

Weight (g)	Neck(mm)	Length (mm)	Application
28	30 * 25	131	1500 ml-mineral water
31	30 * 25	131	1500 ml-mineral water
34	30 * 25	131	1500 ml-mineral water

29/25 PREFORM

This product is designed in a way that has thinner wall on the neck finish which makes it a lighter version of 30/25 mm. This unique feature makes this PET Preform most suitable packaging option for water and Non-carbonated beverages.

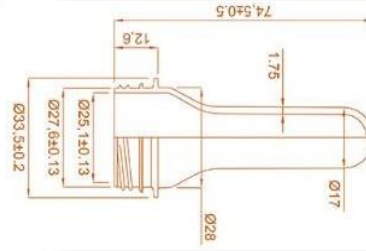

Weight (g)	Neck(mm)	Length(mm)	Application
11.5	29 * 25	77	500 ml-mineral water
13	29 * 25	77	500 ml-mineral water
24	29 * 25	106	1500 ml-mineral water
28	29 * 25	106	1500 ml-mineral water

DETERGENT NECK

One of the most applicable features of PET bottles is in detergent industry. See through feature of PET bottles is very desirable in the eyes of final customers at retail sales. Fadak Kala Co. Supplies two of most popular neck sizes of 24mm and 28mm in order to fulfill detergent industry's fast growing demand.

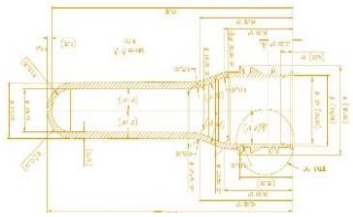

Weight (g)	Neck (mm)	Length (mm)	Application
22	24 DET	95	250 – 300 ml-detergent
34	28 DET	125	500- 1000 ml-detergent

HOT-FILL PREFORM (38MM)

- Food industry is applying heat in different stages of production to increase the shelf life of manufactured products. Therefore, filling hot products in plastic containers and bottles can be a challenge. PET Preform with neck size 38 mm is the most preferred option for packing pasteurized beverages such as milk products and different types of juices.

Weight (g)	Neck (mm)	Length (mm)	Application
22.6	38HF	73	250 ml-Juice & Milk
41	38Hf	116	1500 ml-Juice & Milk

OIL PREFORMS (ALASKA)

This preform is most desirable for packing liquid vegetable oil. Since the weight of bottle is decreased dramatically because of specific design of preform neck, it becomes the most popular packing solution for edible oil industry. This preform is also applicable for bottling mineral water.

Weight (g)	Neck (mm)	Length (mm)	Application
33	Alaska	125	1500 ml-Cooking Oils
35	Alaska	140	1500 ml-Cooking Oils
37	Alaska	125	1500 ml-Cooking Oils

FADAK KALA CO.

CAP

- Crafted from high-quality polyethylene, ideal for crafting beverage bottle caps and polyfill materials utilized in manufacturing washing machine lids.
- Employing an advanced image analysis system, it undergoes rigorous inspection to detect any appearance defects or flaws in the band and door floor.
- Thoroughly monitored for sealing, closure, and opening processes, ensuring optimal performance. The bottle caps manufactured by our company are versatile, suitable for both carbonated and non-carbonated beverages.
- Our gas-sealing stoppers for doors are meticulously designed, providing an exceptionally high reliability factor. The door seals are engineered for easy opening, enhancing user convenience.
- Packaged meticulously, the doors are enclosed in cartons containing 4000 to 7500 pieces, ensuring secure and efficient handling.

29.25 NECK CLOSURE CAP

Closure application	Still mineral water, non-CSD
Closure type	one piece screw
Closure neck diameter	30mm
Neck finish	29/25
Weight	1.25 gr
Outer diameter knurl area	31.3 mm
Height	11.2 mm
Knurl no	72
Sealing system	Double seal
Container material	PET
Closure material	HDPE
Slider TE	Tamper evidence
Filling technology	Cold filling

28 MM CLOSURE CAP , PCO-1810 CSD/NCSD 3 GR

Closure application	CSD & NCSD Drinks,Dough,Fruit juice,Beer
Closure type	two pieces screw
Closure neck diameter	28 mm
Neck finish	PCO 1810
Weight	3 gr
Outer diameter knurl area	30.2 mm
Height	20.1 mm
Knurl no	120
Sealing system	Double seal
Container material	PET
Closure material	HDPE
Tamper evidence	Slider TE
Filling technology	Cold filling,Hot filling

28 MM CLOSURE CAP , PCO-1810 CSD/NCS D 2.8 GR

Closure application	CSD,Fruit juice
Closure type	two pieces screw
Closure neck diameter	28 mm
Neck finish	PCO 1810
Weight	2.8 gr
Outer diameter knurl area	30.1 mm
Height	20.0 mm
Knurl no	144
Sealing system	Double seal
Container material	PET
Closure material	HDPE
Tamper evidence	Slider TE
Filling technology	Cold filling,Hot filling

30.25 NECK CLOSURE CAP

Closure application	Still mineral water, non-CSD
Closure type	two pieces screw
Closure neck diameter	30 mm
Neck finish	30/25
Weight	2.0 gr
Outer diameter knurl area	32.6 mm
Height	17.3 mm
.Knurl no	48
Sealing system	Single seal
Container material	PET
Closure material	HDPE
Tamper evidence	Slider TE
Filling technology	Cold filling

24MM FLIP-TOP CLOSURE CAP, 3.95GR AND 3.75GR

Closure application	Shampoo, Sanitizer, Dtergents
Closure type	two pieces screw
Weight	3.75 gr , 3.95 gr
Closure neck diameter	24 mm
Outer diameter knurl area	27.3 mm
Height	25.3 mm
Sealing system	One seal
Container material	PET
Closure material	PP
Filling technology	Cold filling

FADAK KALA CO.

PET(POLYETHYLENE TEREPHTHALATE)

As a reputable importer and seller, we take pride in offering top-quality Polyethylene Terephthalate (PET) products. Our PET materials are sourced with a commitment to excellence, ensuring superior quality for a diverse range of applications. Known for its exceptional durability and clarity, our PET is an ideal choice for packaging solutions. Whether you're in the food and beverage industry or require reliable materials for other purposes, our PET products meet the highest standards. We prioritize customer satisfaction, providing a consistent and reliable supply of PET to meet your business needs.
